University Challenge

OWASP AppSec Research 2014 invites to the University Challenge
@ Anglia Ruskin, Cambridge, UK

The University Challenge is a competition among teams comprised of university students that will be held on Tuesday 24th June 2014 during the training days of the conference. There is no admission fee for the University Challenge – participation in the conference is possible at the student rate if applicable. During the University Challenge teams will defend a vulnerable web application while solving Capture The Flag type challenges.

This year the OWASP University Challenge will be limited to 8 teams. Teams will consist of 4-8 students, with one team per university. All team openings are on a first come first serve basis. If multiple teams are received from the same university the second team will be put on a wait list.

All team members must be registered. Registration for the University Challenge event is free. Food and beverages will be provided during the challenge and all participants will get an OWASP University Challenge t-shirt. Of course, the first three winning teams will get some awesome prizes (to be announced).

The participation is free.

Sign Up

In addition to a regular registration, please send an e-mail to

Adrian.Winckles@anglia.ac.uk & Tim.Rowsell@anglia.ac.uk using

"University Challenge" as a subject and including the following information:
